

# Love Don't Live Here

Ladyhawke

Love love love dont live here anymore  
You say that its a shame and show me the door  
You say that you dont need me anymore  
And I said

Love love love dont live here any  
Love love all you want is ending  
Love love all the nights were spending  
Love love love dont live here anymore

Lonely hearts are always wanting more  
But only parts of mine were still unsure  
You say that you dont want me anymore  
And I say

Love love love dont live here any  
Love love all you want is ending  
Love love all the nights were spending  
Love love love dont live here anymore

Dont know anymore

Love love love is always so unsure  
But bleeding hearts have always known no law  
You say that you dont need me anymore  
And I said

Love love all the nights were spending  
Love love love dont live here anymore

Dont know anymore

You say your life was heading downhill  
The light denied you, that's why you left  
From me, what's left to you  
I waited for you still  
You say your life was heading downhill  
The light denied you, that's why you left  
From me, what's left to you  
I waited for you still
