

# The Animals

Ladytron

There's no law  
There's no God  
There's no harm  
There's no love

We are more like you  
Than the ones that you knew

Phantom road  
Erased address  
Tribeca queen  
Dismantled cross

We are more like you  
Than the ones that you knew

Phantom road  
Erased address  
Tribeca queen  
Dismantled cross

We are more like you  
Than the ones that you knew

Is it that we know we are animals?  
Or because to them we are animals?  
You're inventing words for defending me  
While lined up to shoot for the enemy  
While lined up to shoot from the enemy  
You're inventing words for defending me  
It's because to them we are animals  
Or because we know we are animals

Concrete soul  
Machine the heart  
Poison creed  
Primate savant

We are more like you  
Than the ones that you knew

Is it that we know we are animals?  
Or because to them we are animals?  
You're inventing words for defending me  
While lined up to shoot for the enemy  
While lined up to shoot from the enemy  
You're inventing words for defending me  
It's because to them we are animals  
Or because we know we are animals

Is it that we know we are animals?  
Or because to them we are animals?  
You're inventing words for defending me  
While lined up to shoot for the enemy  
While lined up to shoot from the enemy  
You're inventing words for defending me  
It's because to them we are animals

Or because we know we are animals

There's no law  
There's no God  
There's no harm  
There's no love

We are more like you  
Than the ones that you knew
