

# The Reason Why

Ladytron

Where am I  
Sleeping at the console  
I dreamt something  
That I don't remember

Checking in  
Just like any other  
Signing off  
Signing out forever

Your second hand  
That's the reason why you're easy to drive  
(the reason why)

You understand  
That's the reason why you're easy to hide

My heart says yes  
But I was sedated  
Signing off  
Checking in together

Your second hand  
That's the reason why you're easy to drive  
(the reason why)

You understand  
That's the reason why you're easy to hide  
(the reason why)

You joined a band  
That's the reason why you're easy to try  
(the reason why)

You understand  
That's the reason why you're easy to hide
