

# Midnight Strikes

Lafee

Dark it's oh so dark  
Fear comes creepin  
The nightmares bout to start

Steps, its him again  
He's got that hunger,  
she can't comprehend

Hush now, you need to hush now  
He whispers "look who's coming now"

Midnight strikes in the darkest night of her life, she cries  
All her dreams are dyin'  
Midnight strikes in the darkest night she's in tears  
She hears a million angels screamin' in pain

A child she's just a child  
But that dont stop  
his mind from runnin' wild

Cold she's oh so cold  
So helpless as evil unfolds

Hush now, you need to hush now  
He whispers "look who's coming now"

Midnight strikes in the darkest night of her life, she cries  
All her dreams are dyin'  
Midnight strikes in the darkest night she's in tears  
She hears a million angels screamin' in pain

Midnight strikes in the darkest night of her life, she cries  
All her dreams are dyin'  
Midnight strikes in the darkest night she's in tears  
She hears a million angels screamin'

Midnight strikes in the darkest night of her life, she cries  
All her dreams are dyin'  
Midnight strikes in the darkest night she's in tears  
She hears a million angels screamin' in pain
