I never thougt I could get this far
I still hear them say no chance, no way
And they said she ain't too smart
She ain't got what it takes, this girl is bound to fail
I almost bought that shit but I ain't gonna quit

Now's the time
The time to lay it on the line
The time for me to say and do whatever's on my mind
I will fight for my right, will defend my way of life
Come hell or high water
Now's the time
The time has come for me to shine
Whatever they may say, I ain't gonna break my stride
I will make the world see you can realize your dreams
Come hell or high water
Now's the time

In the eye oft the storm but I ain't scared Cause after the storm There'll be calm somewhere An army of thousands pissin' on my dream But I don't give a damn Guess I'll have them make to see:
I never gave a shit and I ain't gonna quit

Now's the time
The time to lay it on the line
The time for me to say and do whatever's on my mind
I will fight for my right, will defend my way of life
Come hell or high water
Now's the time
The time has come for me to shine
Whatever they may say, I ain't gonna break my stride
I will make the world see you can realize your dreams
Come hell or high water
Now's the time

Now's the time The time to lay it on the line The time for me to say and do whatever's on my mind I will fight for my right, will defend my way of life Come hell or high water Now's the time The time has come for me to shine Whatever they may say, I ain't gonna break my stride I will make the world see you can realize your dreams Come hell or high water Now's the time The time to lay it on the line The time for me to say and do whatever's on my mind I will fight for my right, will defend my way of life Come hell or high water Now's the time
