

Billionaire

Lagwagon

Breaking down in surround
Alarms are deafening
Alone in immersion
Drowning in the dream
Billions in the shadow
Of one you won't deceive
All we know is failure
All we have is us
How can I forgive you?
For breaking our last trust
Billions of sincerities
And one you will believe
You have to honor me [repeat]
Our lives are incomplete
Without our honesty
Our honesty
Breaking down the numbers
Eliminate the waste
Nothing's ever perfect
Forget about disgrace
Fuck the purist
Fuck the tourist
Fuck the bourgeoisie
You have to honor me
I have to honor you
Our lives are incomplete
Without our honesty
My life is incomplete
Without our honesty
Honesty
