

Eat Liver!

Laibach

Liver, liver, liver
We need to take and deliver
Liver, liver, liver
We need to take and deliver
Steal and deliver
Let's steal and deliver
Go, baby, go
Stand and deliver

Wanna do it now

It's time for the show
Smell it in the air
It's time for the show
Revolution
To deliver

Wanna do it now
It's time for the show
Everybody's here
Let's lose control
Revolution
We deliver

Let's make some noise
When kingdoms fall
And dance to the rhythm
Of a devil's call
We know what we want
We've been there before
When we get there again
We will stop no more
Never more

There are songs in my mind
They're never gonna die
There are visions in my head
They will always make me high
When they quiver
I'll deliver

We keep following the line
But remember in the end
There are statements to be said
That we need to understand
When they come
And deliver
