

# Eat Liver!

Laibach

Liver, liver, liver  
We need to take and deliver  
Liver, liver, liver  
We need to take and deliver  
Steal and deliver  
Let's steal and deliver  
Go, baby, go  
Stand and deliver

Wanna do it now

It's time for the show  
Smell it in the air  
It's time for the show  
Revolution  
To deliver

Wanna do it now  
It's time for the show  
Everybody's here  
Let's lose control  
Revolution  
We deliver

Let's make some noise  
When kingdoms fall  
And dance to the rhythm  
Of a devil's call  
We know what we want  
We've been there before  
When we get there again  
We will stop no more  
Never more

There are songs in my mind  
They're never gonna die  
There are visions in my head  
They will always make me high  
When they quiver  
I'll deliver

We keep following the line  
But remember in the end  
There are statements to be said  
That we need to understand  
When they come  
And deliver
