Eat Liver!

Liver, liver, liver We need to take and deliver Liver, liver, liver We need to take and deliver Steal and deliver Let's steal and deliver Go, baby, go Stand and deliver

Wanna do it now

It's time for the show Smell it in the air It's time for the show Revolution To deliver

Wanna do it now It's time for the show Everybody's here Let's lose control Revolution We deliver

Let's make some noise When kingdoms fall And dance to the rhythm Of a devil's call We know what we want We've been there before When we get there again We will stop no more Never more

There are songs in my mind They're never gonna die There are visions in my head They will always make me high When they quiver I'll deliver

We keep following the line But remember in the end There are statements to be said That we need to understand When they come And deliver Laibach
