

# Collide

Laidback Luke

Never happens like they told me  
It seems a chapter here is missing  
Through this storm our love is stronger  
Now I follow where you live

Open your eyes!  
Here I stay beside you  
Open your mind!  
Take me where our love collide  
Collide, collide, collide, collide  
Take (take)

Open your eyes!  
Here I stay beside you  
Open your mind!  
Take me where our love collide

Where this love collides  
Through this storm our love is stronger  
Now I follow where you lead  
Open your eyes!  
Here I stay beside you  
Open your mind!  
Take me where our love collide

Open your eyes!  
Here I stay beside you  
Open your mind!  
Take me where our love collide  
Collide, collide, collide, collide  
Take (take, take)

Take (take)

Open your eyes!  
Here I stay beside you  
Open your mind!  
Take me where our love collide  
Collide, collide, collide, collide  
Take (take, take)

Take me where our love collide
