

Oh I know you dream
So wild and free
You're kept in chains

I can hear you scream
I feel your need
For lust and love and flames

Unsane
Unsane

When you're cold and down on your knees
In the pouring rain
Come on feel my touch, baby, come feel the flame
Punishment and pain

Let me be your dream
I can set you free
Save you from this cage

I can hear your screams
Let me set you free
Oh I can't wait

Unsane
Unsane

When you're cold and down on your knees
In the pouring rain
Come on feel my touch, baby, come feel the flame
Punishment and pain

Come to me
I can set you free
Free from your chains

When you're cold and down on your knees
In the pouring rain
Come on feel my touch, baby, come feel the flame
Punishment and pain

When you're cold and down
In the pouring rain
Feel my touch, baby, feel my flame

Come to me
