

Hello? Goodbye

Lake Street Dive

It feels good to be over you,
but it felt good to be under you
so maybe it's just you that feels good.
I feel like I should be over you,
and good girls do what they should do
so maybe I'll just do what I should.

I should tell my mind to stop remembering.
I should make my fingers stop their trembling.
And when I pass your doorway I should just walk right by.

When you say hello, I'll say goodbye.

I should tell my mind to stop remembering.
I should make my fingers stop their trembling.
And when I pass your doorway I should just walk right by.

When you say hello, I'll say goodbye.
