True To Me

Lalaine

I never believed in the word lonely
Even when I found myself all alone
I never needed someone else to want me
To make me feel wanted
"Cause deep inside I've always known
Who I am
All I am is

True to me
Faithfully
In a world where lies can let you down
I pick myself up off the ground
'Cause I'm true to me
Honestly
I've wrestled with conformity
And all that I can be is true to me

I always believed what people told me
Everyone tells you what you want to hear
I always thought that someone else would save me
But you can only save yourself
And nothing's ever been so clear
Like an open road
I call my own

And it feels like
The sun is here
The sky is clear
And there's nothing but the smell of the rain
That's come and gone
