

We Had Something

Lalaine

We had something...
This love is faded
Has left me worn out and jaded
And nothing is sacred
In this life
In this world of mine

This road has ended
And I never comprehended
That you would have pretended
Not to feel anything at all

We had something
Don't act like it was nothing
I was crazy
To think I was your baby
All you gave me
Is this heart that's so empty
We had something
Don't act like it was nothing
Cause we had something

Do you remember
How we would talk forever
And stare at each other
"Til the sun suddenly slipped away

This shoebox of letters
And pictures of us together
Are all torn and weathered
Tucked away but it's all that I have

You can try

But no matter what you say
It's your pride
That's getting in the way
