

I had a talk with the shadow and the light  
fighting for me  
they said put your tricks aside  
and for once believe  
How can I, I don't,  
I never did.  
I don't know how to  
But when it's not enough to fight for me  
I'm gonna wanna live and fight for you

Just because it's black in the dark  
Doesn't mean there's no colors  
Just because it's black in the dark  
Doesn't mean there's no colors

I had a talk with the shadow and the light  
Oh, oh, looking at me  
They said put your reason aside  
And for once believe  
How can I, I don't,  
I never did,  
I don't know how to  
And if I ever stop believing in me  
I know I always can believe in you.

Just because it's black in the dark  
Doesn't mean there's no colors  
Just because it's black in the dark  
Doesn't mean there's no colors

I pulled up my roots  
From the bottom I was caught in  
I was caught in  
And I had a talk with the shadow and the light  
Fighting for me
