

Stars Align

Laleh

I'm walking in the town like a ghost
I'm walking like I'm walking on water
Remembering the dreams I broke
I'm looking for a life without trouble

It's a beauty when the streets are wet
There's a sense of clean and change to it
God, You know my life

Will my stars align, will my stars align?
Looking to the sky, looking for a sign
Will my stars align, will my stars align?
Oh God, looking for a sign
Will my stars align

Will my stars align?
Looking for a sign
Will my stars align? Align

I'm walking on the streets like a wolf
The people, the city, the colors
This world is in mad hands
The world that I'm so much a part of

It's a beauty when the streets are wet
There's a sense of hope and change to it
And I love it how the moon shines

But will my stars align, will my stars align?
Looking to the sky, looking for a sign
Will my stars align, will my stars align?
Oh God, looking for a sign
Will my stars align?

Will my stars align?
Looking for a sign
Will my stars align? Align

Don't say we're alone
Don't say we're alone in this
In this universe
Or they know something

Will my stars align?
I love it when the streets are wet
There's a sense of hope and change to it
And I love it how the moon shines

Will my stars align, will my stars align?
Looking to the sky, looking for a sign
Will my stars align, will my stars align?
Oh God, looking for a sign
Will my stars align?

Will my stars align?
Looking for a sign
Will my stars align?

Walking on the streets like a ghost
