

# Tell Me

Laleh

Tell me something else  
Tell me that you've changed  
Tell me something else  
Don't repeat again  
Tell me something new  
Say another tune  
Show me something else  
Another side of you

Did you never think that I might go  
And did you never thing I might not take it anymore  
Did you never think that I might go  
And did you never thing I might not take it anymore

Show me something else  
(Show some grace)  
Show some grace  
Cause I can't base no love  
On the beauty of your face  
Convince me in a way  
So we survive  
Show me another you  
Show me another side

Did you never think that I might go  
And did you never thing I might not take it anymore  
Did you never think that I might go  
And did you never thing I might not take it anymore

Tell me something else  
Tell me that you'll change  
Tell me something new  
Don't repeat again  
Tell me something else  
Say another tune  
I can't wait no more  
Waiting by the door

I can't wait no more  
Waiting by the door

Did you never think that I might go  
And did you never thing I might not take it anymore  
Did you never think that I might go  
And did you never thing I might not take it anymore
