

# Nobody Else

Lamb

When you came along  
Your face was the song  
I'd forgotten to sing  
And a blinding light  
Made a thread so bright  
To join us together, never ending

There's nobody else for me  
No, no, nobody else will do  
No, no, no, nobody else for me  
No, no, nobody else but you

And falling so deep  
I woke from a sleep  
Of thousand tears  
Your love was the call  
To break down the walls  
I'd built up for years and years

There's nobody else for me  
No, no, nobody else will do  
No, no, no, nobody else for me  
No, no, nobody else but you

Here I stand  
In all that I am  
Yours in every breath

There's nobody else for me  
No, no, nobody else will do  
No, no, no, nobody else for me  
No, no, no, nobody else but you

There's nobody  
No, no, no, no, nobody else for me  
Nobody else but you  
Nobody  
No, no, no, no, nobody else for me  
Nobody else but you

When you came along  
Your face was the song  
I'd forgotten to sing
