

## Shines Like This

Lamb

Calling me now  
Early in the winter  
Like a daughter  
Singing in the fall  
Ever after  
Running fast and barefoot  
And a treetop  
Dancing over all

It shines like this  
As one giant kiss

You're a new day  
And a roller coaster  
Never felt like  
Better circumstance  
Would you know it  
Ever look and show it  
In the music  
When you start to dance

It shines like this  
As one giant kiss

Come together  
Everyone and no one  
In November  
Just before it snows  
Then the blossom  
Brings a scent of sweetness  
Any Weakness  
Stronger than we know

It shines like this  
As one giant kiss
