

For K Part 2

Lana Del Rey

Alright, you got me
I don't play a good guitar
but what do want from me
it's just a stupid bar
I didn't t promised anything

You think I'm pretty and you like way I talk
I like your music
and you like the way I walk so
I think we're gonna get along

I like the way you wear your sweater off your shoulder
The way your hair comes down and makes you look older

How are you getting so handsome my boy?

Pretty baby...
Pretty baby...
Aahhh...

The way your face is shaped
I wonder if you know
The way you stand back and your silhouette glows

I'm electrified
I'll be up all night now

Use that voice
Sing that song
And tell me to come on, to come on, come on

You want here no? (2x)

Pretty baby (2x)
aaahhh
