

# Night Falls

Lana Lane

In a dream last night  
I watched as the angels came down  
Slowly they float like they're shadows  
Asleep on the ground

And there's no way home  
No way home

I asked the gypsy for the answer  
Then saw the writing on the wall  
She turned the sky to alabaster  
Drinking raindrops as they fall

And now night falls on the mountain  
Day crawls to the edge  
Sleep well majestic captain  
Dream of your golden age

Moving pictures turn to black and white  
See them burning in the wind  
Watch the ashes pave the road of light  
Let the dream begin again

Night falls on the mountain  
Day crawls to the edge  
Sleep well majestic captain  
Dream of your golden age
