

Take A Breath

Lana Lane

We can be, I know, utterly torn
Down down you whirl 'til you hit the ground
You pay the life long debt you never owed

Lift you head in the freedom

All rise in the name of love (take a breath)
Show me what this life's about
Oh God in the name of love (take a breath)
Show me how to live again

The sands of time slip through your fingers
You say the cure can not be found in time
Two steps into the light to meet the heart of dawn

Lift your head - In the freedom

All rise in the name of love (take a breath)
Show me what this life's about
Oh God in the name of love (take a breath)
Show me how to live again
