

# Through The Rain

Lana Lane

On and on, running in the shadows  
I've been eluded by love  
Can it find me here?  
Reach out into the darkness  
I've been waiting here for you  
We've been through the war  
And we've settled the score  
I've paid my dues

Get me through the rain  
Take me far away, lead me to the sun be my only one  
Through the rain

Day by day turns into lonely nightfall  
I pray that someday you'll hear me  
Come and rescue me

I call out into the darkness  
Only echoes return  
Cursing the day that our love went away  
Come and ease the pain

Get me through the rain  
Take me far away  
Lead me to the sun  
Be my only one  
Throuht the rain
