

# Magnetic Hill

Land of Talk

Lucky for me to think  
this only happens one time  
we got along more or less life's long  
can't tell

i pick it up there  
'cause i want it and I want it that bad  
i need help with direction  
leave it alone  
dear  
you see  
it comes back  
come back

we need like a song  
but that's not all  
we need a friend  
who won't push us around  
party in the danger  
licking off the way we were

as that's a lonely line  
you said in sign  
i don't want the cause  
i can't keep a cause

shock, shift and shake off  
bid the last/first farewell  
we got along more or less  
life's long can't tell  
and I pick it up there  
cause i want it and i want it that bad  
i need help with direction  
leave it alone  
dear  
you see it comes back  
come back

we need like a song  
but that's not all  
we need a friend  
who won't push us around  
party in the danger  
licking off the way we were  
that's a lonely line  
i said in sign  
i don't want the cause  
i can't keep the cause
