

May You Never

Land of Talk

"May You Never"
You were my sister
We slept in the same wet town
'Til a well wish of winter
Who's name we could not live down

Leave it unmapped
Just conquer less of my mind
Visions on visions
Blinding me over time

Weigh-down, what are you slaying now?
I won't go missing out on your river
Way down, what are you saying now?
I won't go missing out on your river
