

LA, LA, where you and I found, found each other
LA, LA, dirty good love don't last forever
New York, New York, you've stolen my heart and run it over
New York, New York, New York, New York

Be right back, I'm gonna cry myself, myself to sleep
How'd you in fall in love, in love without me?
Be right back, I'm gonna throw myself against the wall
Be right back, tell me you'll be right back

You were, you were, the drug of my choice, my great escape now
You are, you are, the drug of the town, who hasn't had a taste?
Come on, come on, everything's fine, fine in LA
New York, New York, no more, no more

Be right back, I'm gonna cry myself, myself to sleep
How'd you in fall in love, in love without me?
Be right back, I'm gonna throw myself against the wall
Be right back, tell me you'll be right back

LA, New York
LA, New York
LA, New York
But I want you more
LA, New York
LA, New York
LA, New York
LA, New York
But I want you more
LA, New York
