LA, LA, where you and I found, found each other  
LA, LA, dirty good love don't last forever  
New York, New York, you've stolen my heart and run it over  
New York, New York, New York, New York

Be right back, I'm gonna cry myself, myself to sleep  
How'd you in fall in love, in love without me?  
Be right back, I'm gonna throw myself against the wall  
Be right back, tell me you'll be right back

You were, you were, the drug of my choice, my great escape now  
You are, you are, the drug of the town, who hasn't had a taste?  
Come on, come on, everything's fine, fine in LA  
New York, New York, no more, no more

Be right back, I'm gonna cry myself, myself to sleep  
How'd you in fall in love, in love without me?  
Be right back, I'm gonna throw myself against the wall  
Be right back, tell me you'll be right back

LA, New York  
LA, New York  
LA, New York  
But I want you more  
LA, New York  
LA, New York  
LA, New York  
LA, New York  
But I want you more  
LA, New York
