

Flowers on the Floor

LANY

Lay it all out
I'm tired of this, and it's startin' to rain
Come on, make a sound
Didn't leave tonight for you to say nothing
It's been about a week
Since I've had a bite and it's startin' to show
The bones above my cheeks
Are gonna break the skin if you try to let me go

Spillin' all my guts
And I think you kinda love it
Think I might be sick
From how much you know I love ya

Cheap excuse, no time
Do you even mind that I
Left flowers on the floor?
Flowers on the floor
Cheap excuse this time
Last time in Hell that I
Leave flowers on the floor
Flowers on the floor

Flowers on the floor
Flowers on the floor
Flowers on the floor
Flowers on the floor

Every knuckle taped
I don't wanna fight, but you're out for blood
We could go 10 rounds
But you know the score wouldn't be unanimous
Open up your head
Wanna swim around that tumultuous brain
The bones above my cheeks
Are gonna break the skin if you try to walk away

Spillin' all my guts
And I think you kinda love it
Think I might be sick
From how much you know I love ya

Cheap excuse, no time
Do you even mind that I
Left flowers on the floor?
Flowers on the floor
Cheap excuse this time
Last time in Hell that I
Leave flowers on the floor
Flowers on the floor
Cheap excuse, no time
Do you even mind that I
Left flowers on the floor?
Flowers on the floor
Cheap excuse this time
Last time in Hell that I
Leave flowers on the floor

Flowers on the floor

Spillin' all my guts
And I think you kinda love it
Think I might be sick
From how much you know I love you

Cheap excuse, no time
Do you even mind that I
Left flowers on the floor?
Flowers on the floor
Cheap excuse this time
Last time in Hell that I
Leave flowers on the floor
Flowers on the floor
Cheap excuse, no time
Do you even mind that I
Left flowers on the floor?
Flowers on the floor
Cheap excuse this time
Last time in Hell that I
Leave flowers on the floor
Flowers on the floor

Flowers on the floor
Flowers on the floor
Flowers on the floor
Flowers on the floor
