

## All The Best Girls

Lapko

Why do all the best girls have a loaded gun  
Immortal group of killers ready for landing  
And why do all the best girls never look behind  
Before you cut their long hair and forget to be honest

I try to get answers from the others  
Instead of myself  
one of the questions on the road  
is Do I ever find a way home

Why do all the best girls never look like whores  
They have friends to talk to and hold on to  
And why do all the best girls never fuck it up  
Before you cut their hair and decide to be honest

I try to get answers from the others  
Instead of myself  
one of the questions on the road is  
Do I ever find my way home

I know you have something to look for  
I know you have something you hate to show  
I know you have something to look for  
I know you have something you hate to show

I try to get answers from the others  
Instead of myself  
one of the questions on the road is  
Do I ever find my way home
