

Future Planes

Lapko

I can tell you my future plans
Follow my light
Open the
Door and I'll step inside
Never know what could happen
Next
It depends on everything
Now I'm scared and
Just want to cry

Take my hand note the smoke

Bring me up before I fall
Tell me the truth and
I'll forget the past - time

Even I need your help
Sometimes
It's a shame
After I have blamed all
Your sides
I close my eyes and try to masturbate

It's not going to work
Too much light I'm so
Shy - daytime

Take my hand note the smoke
Bring
Me up before I fall
Tell me the truth and I'll forget
The past - time

I sleep with fear that I can't

Survive all the years through alone
I have to ignore
Do I have to ignore your love?

Take my hand note the
Smoke
Bring me up before I fall
Tell me the truth and
I'll forget the past - time
