

## Get In Time

Lapko

Everytime in this land of glory  
Everytime it's gonna hurt so much  
When man made a wonder

That could be one of his last wishes  
That could be his only one  
Before it's time to slow down  
And stop hanging around  
We walk on a thin line  
We fly with the wind  
Powerless and so unknown  
There is no superior

I can hear the years breathing  
Laying deep down inside  
Heartbeat  
What we could know  
About anything before we've been lost  
Too many times I beg you - time  
I beg you - time  
That I will breathe in

When I was young she said to me  
Be yourself do what you want  
That's the reason for your name  
Fix the edge on your skirt  
If you feel like they'll stand up  
From their seats  
And watch your cute back

I love my humour  
I love my way to sing  
And I wish I feel so much  
So pure my mouth can taste  
Fresh alcohol

It is a part of my freedom  
Personal fundamentalism  
Why stop the train before it's too late  
It's too late  
Someday anyway  
Ethics do not prevent you

To have some fun when years are breathing  
Laying deep down inside  
Heartbeat  
What we could know  
About anything before we've been lost  
Too many times I beg you - time  
I beg you - time  
That I will breathe in
