

Hugging The Phone

Lapko

It's not a matter to me
Million miles away is near enough
Deep black sea - It's nothing
It's far behind cause You're here
to touch

I only know you on the phone
From hugging you, to hugging
the phone

I'm not playing a role now
I'm here just because
I've got to say
I'm not a fan of yours anymore
but you're still my only idol
It's nothing
It's far behind cause You're here
to touch

Burden sleeps next to me
On it's own pillow never turning
it's back on me
It's beautiful and scary
It's mine
I can tell you
I'm proud
I can tell you
It's mine
I can tell you

Always and forever
