

Sawyer The Brother

Lapko

I wanna live in peace and love
Help me God
Brother, sister, you've gotta carry
your gun

Sawyer put a finger on the trigger
Please stay inside after midnight
We are the ones, our show must
go on

Carry on struggling against
violence
Help me God
Brother, sister, you've gotta carry
your gun

Sawyer, Peace and love
Sister, Help me God
One thing
we all wait for is
the end of the war

You have moses in the battlefield
On the backseat of a limousine
You have black jeans and liberty
You've got a love gun to turn
them cold

Cold cacao
