

Summer Nights

Lapko

Hey girl - Where do you spend your afterlife
Hey girl - You gotta breathe in right now
Your smile shines like the sun of a summer night
Your soul is free like dance on a beach

Hey girl - You're gonna turn off your ears
You're gonna turn off your eyes
Life is black anyways - that's all

Fool it - You can fool it by your smile
You can fool it by ignoring

Summer nights, summertime

Hey girl - You have wings on your little back
Hey girl - You mother must have been a bird
Your smile shines like a cancelled suicide
That's why you're better not to become old

Fool it - You can fool it by your smile
You can fool it by ignoring
You can fool it by your shine
You can fool it by ignoring

Hey girl - There's no reason for you to cry
And girl - Remember to breathe right now
