

Teacher Pain

Lapko

This is the day
I feel more than ok
You're walking in
Like a hologram
Right here but so much more

No need to be the last soldier
To win a war
Just dive and it's enough
It's your call
This is a road
This is a game
Without rewind
Without replay
A game without replay
Lonely soldier's happiness

I didn't have to give
My breath away I came like
The only one
Cause after all
This is my everything
Nothing more
Sentimentality it's like a butterfly
In it's impressive being
Colourful wings
Why count straight to 35
35 has seven fives

A game without replay
Lonely soldier's happiness

History is a one black hole
It's nothing more unless you haven't
Lost something you really love

This time
Was your turn to say goodbye
Eyes full of tears
Can't see happy endings
Weaker
Than before or much more stronger
All the things you go through now
Will teach you what is love

History is a one black hole
It's nothing more unless you haven't
Lost something you really love
