

Dancing

Lápsley

You keep shaking me off to another on the dancefloor
You keep shaking me off to another on the dancefloor
You keep shaking me off to another on the dancefloor
You keep shaking me off to another on the dancefloor

Step old change into season change
Into different shoes into older age
Oh it takes two to tango but you never seem to mind
A third dancer
A third romancer
Two steps in to another empty space
Two steps in and a move is out of place
I've been trying so hard to keep in time
Are we dancing out of time?
(Get back in line)

You keep shaking me off to another on the dancefloor
You keep shaking me off to another on the dancefloor
You keep shaking me off to another on the dancefloor
You keep shaking me off to another on the dancefloor

Plead hey, oh I plead hey
Can you see me through the formation?
I got two left feet and I'm far too weak
I've always been the understudy
I know you will never love me
Here comes your twist and shout,
You can never give up
I can't always give the fullest performance when you're around

Shaking me off, shaking-shaking-shaking
Shaking me off, shaking-shaking-shaking
(Get, get)
Shaking me off, shaking-shaking-shaking
Shaking me off, shaking-shaking-shaking
(Get back in line)
