

## Falling Short

Lápsley

One month till February, keep on holding on  
And I know it sure, and I know it sure  
One month till February, keep on holding on  
And I know it sure, and I know it sure

And it's times like these, and it's things like these  
And it's times like these, and it's days like  
It's been a long time coming but I'm FALLING SHORT  
It's been a long time coming but I'm FALLING SHORT

'Cause you could say this is not too far to carry this  
'Cause you could say this is not too far to carry this  
'Cause you could say this is not too far to carry this  
'Cause you could say this is not too far to carry this

And it's times like these, and it's things like these  
'Cause you could say this is not too far to carry this  
And it's times like these, and it's days like  
It's been a long time coming but I'm FALLING SHORT  
'Cause you could say this is not too far to carry this  
It's been a long time coming but I'm FALLING SHORT  
'Cause you could say this is not too far to carry this  
Not too far to carry this, not too far to carry this

Because you took something away from yourself  
Come back to this world and take your heart to higher shelf  
Heart to higher shelf  
Not too far to carry this,  
Because you took something away from yourself  
Come back to this world and take your heart to higher shelf  
One month till February and this is how I feel  
Because you took something away from yourself  
Come back to this world and take your heart to higher shelf  
One month till February  
'Cause you could say this is not too far to carry this  
'Cause you could say this is not too far to carry this
