

# Love Is Blind

Låpsley

Push me aside when the day ends  
And my light is gone  
Put me aside for a lifetime  
Put my a lifeline, so you feel you've won  
I know I may look opaque,  
I look like I've made too many mistakes  
I, I know the fire has burnt out  
No, I gotta leave now  
If the love was easy  
If the walls an endless entity that I could hold on to  
When I touch you, hold on to

Love is blind when the lights go out  
Can you see the shadows flowing?  
Can you see the curtains closing?  
I'm telling you,  
Love is blind when the lights go out  
In a shared sky we were once die down

Pull me closer in the sunset,  
When the light is turned on  
Pull me aside, am I ready yet  
For the heaviness,  
Is getting darker now  
I know I may look a little dazed, burnt on the edge  
Acting like it phases me  
I, I know the fire has burnt out  
No, I gotta leave now  
If the love was easy  
If the walls an endless entity that I could hold on to  
When I touch you, hold on to

Love is blind when the lights go out  
Can you see the shadows flowing?  
Can you see the curtains closing?  
I'm telling you,  
Love is blind when the lights go out  
In a shared sky we were once die down

Taking the air from the room  
Strumming on the words that you don't say  
Gone is the person you knew  
You never loved me anyway!

Love is blind when the lights go out  
Can you see the shadows flowing?  
Can you see the curtains closing?  
I'm telling you,  
Love is blind when the lights go out  
In a shared sky we were once die down
