

Station

Låpsley

(I could walk you)

Two for the taking
You can have it all at once if you make it sane
Its gonna drive you
Back down the roads and the streets and pavements

Stamping your ground and the rules that shaped us
(That shaped us)

Well I will ring you up
Say I want you back
Chat back stab say I never wanted that
It's just inevitable distance
Twisted bitterness
Give her two months she'll be over that

Cause I could walk you back to the station
Talk about our own frustrations
