

## Closer

Lapush

Two in the morning, Im heading home  
Wish it was evening, Id start it again  
In your apartment with no view  
We talk like strangers with no clues  
We always hurt each other  
Looks like were fighting a war

Chorus:

Were alive tonight  
Save our soul save our lives  
This is the best day out  
Feel the weight of my love  
Feel my arms around your heart  
I need you tonight

We can talk all night  
Ill say the things I should have said when theres nothing but t  
ime to waste  
Now theres not enough time to say  
(And) I wont take for granted the people I love  
Just breathe in the moment  
Just breathe in the love

Chorus:

Chorus 2:

Crashing down ocean size Im on your side  
Wrapped in heaven where you belong

I have to get closer to you (2x)

Chorus:

Youre going home  
As I close your eyes  
Youre going home  
As we say goodnight, goodnight
