

Sticking Around

Lapush

You have to love with your chemicals on
You have to love with your chemicals on
You push it away, push it away, push it away
Don't you know that I miss you so much?

And I hear you're not sticking around
I hear you've been cursing my name
I hear you're not sticking around
No, you're just crawling away

You turn and leave like an ordinary day
Hit me fast as a crash and i can't see
You push it away, push it away, push it away
Don't you know that I miss you so much?

And I hear you're not sticking around
I hear you've been cursing my name
I hear you're not sticking around
No, you're just crawling away

Say it's o.k. say it's all right...
Say it's o.k. say it's all right

You have to love with your chemicals on
You have to love with your chemicals on

And I hear you're not sticking around
I hear you've been cursing my name
I hear you're not sticking around
No, you're just crawling away
