

## Tout Le Monde

Lapush

Everybody wants you alive  
Everybody wants you alive  
Everybody wants you alive  
But I can't get you out of my head

Everybody wants you alive  
Everybody wants you alive  
Everybody wants you alive  
But I can't get you out of my head

Everyone, everyone,  
Everyone, everyone...  
Can't get you out of my head

In this life there's hope  
In this bed there's hope  
In this life there's hope  
But I can't get you out of my head

I'm on a road and I feel like I'm flying with you  
I'm on a road and I feel like I'm dying with you  
I'm on a road and I feel like I'm flying with you  
Everyone, everyone,  
Everyone, everyone...

Lord, I've tried to get what I could out of this life  
Before I die...before I die
