

# Chameleon

Lara Fabian

We can chase the moon down  
But I ain't ever park it and carry the round  
We could hop on a star  
Holding on for dear life  
Yeah we can meet that far  
Be whatever we want  
Only madness will live or not  
Oh be whatever we want  
Anything between black or white

We can be chameleons  
Change all like chameleons alright  
Alright  
We can be chameleons  
Choosing all my preference alright  
Alright  
We can be, we can be chameleons  
We can be, we can be chameleons

Do you need a sunrise?  
Want to be a mountain  
Well that's what we can be  
We can eat from that tree  
The forbidden through it grows for you and me

Be whatever we want  
Only madness will live or not  
Oh be whatever we want  
Anything between black or white

We can be chameleons  
Change all like chameleons alright  
Alright  
We can be chameleons  
Choosing all my preference alright  
Alright  
We can be, we can be chameleons  
We can be, we can be chameleons  
We can be, we can be chameleons  
We can be, we can be chameleons

We can be chameleons  
Change all like chameleons alright  
Alright  
We can be chameleons  
Choosing all my preference alright  
Alright

We can be, we can be chameleons  
We can be, we can be chameleons  
We can be, we can be chameleons  
We can be, we can be chameleons
