

If I Let You Love Me

Lara Fabian

If I let you love me
Chances are I love myself again
If I let you love me
Will you take it all to share?
If I let you touch me
Well the addiction burn me up
Will it cure or crush me?
If I let you love me

I will hand you I'll my depts and fears
I will hand you my broken souvenirs

If I let you love me
Will you see the flowers and stay with me?
If I let you strip me
Will you love me anyway?
Well the addiction burn me up
Will it cure or crush me?
If I let you love me

I will hand you I'll my depts and fears
I will hand you my broken souvenirs

Look at me now, look at me now
Look at me wether on this way
Look at me now, look at me now
Look at me now I'm ready
Look at me now, look at me now
Look at me would you be close to like
Look at me now, look at me now
Look at me are you ready?

I will hand you I'll my depts and fears
I will hand you my broken souvenirs
I will hand you I'll my depts and fears
I will hand you my broken souvenirs
