

That's What You Do

Lari White

Boy you're doing something to my heart
It's kinda hard to define
It's what a neon light does for Saturday night
You do for this heart of mine

It's what the French did for the kiss
What the Italians do for wine
It's what a real slow dance does for true romance
You do for this heart of mine

That's what you do
Whenever we're together
And even when we're far apart
That's what you do
Knock me over with a feather
That's what you do for my heart

It's what James Dean did for cool
What Marilyn did for fine
It's what the Beatles did American kids
You do for this heart of mine
Oh, yeah

That's what you do
Whenever we're together
And even when we're far apart
That's what you do
Knock me over with a feather
That's what you do for my heart

It's what the sunset does for the beach
What the wind does for the chime
It's what the full moon does for any fool in love
You do for this heart of mine
That's what you do for this heart of mine

That's what you do
Whenever we're together
And even when we're far apart
That's what you do
Knock me over with a feather
That's what you do for my heart

That's what you do for my, what you do for my heart
That's what you do, that's what you do, that's what you do
That's what you do for my heart
