## **CROWN OF FIRE**

Larkin Poe

I've been strucking that flinter steel I've been strucking of the flames I punish you for all the pain i feel When i'm the one to blame Gonna cut you down to size Overlook the pain in your eyes Diggin in stubborn as a mule Losing love lonely as a fool I'm gonna burn at my one stake I've been strucking that flinter steel I've been strucking of the flames I punish you for all the pain i feel When i'm the one to blame I'm getting that I'm getting that Everything i asked for Burning under my hearts desire Wearing my crown of fire Gotta make a sacrafise On the alter of always right And if the sacrafice is you I gotta do what i gotta do You're gonna burn at my own stake I've been strucking that flinter steel I've been strucking of the flames I punish you for all the pain i feel When i'm the one to blame I'm getting that I'm getting that Everything i asked for Burning under my hearts desire Wearing my crown of fire Fire Fire Fire Fire fire fire I know i know i know ohohoho I know i know i know ohohoho I know i know i know ohohoho I've been strucking that flinter steel I've been strucking of the flames Burning under my hearts desire Wearing my crown Yeah i've been strucking that flinter steel I've been strucking of the flames I punish you for all the pain i feel When i'm the one to blame I'm getting that I'm getting that Everything i asked for Burning under my hearts desire Wearing my crown of fire Burning under my hearts desire Wearing my crown of fire
