

## Forget Your Hexagram

Larry Norman

Forget your hexagram you'll soon feel fine  
Stop looking at the stars  
You don't live under the signs  
Don't mess with gypsies  
Or have your fortune read  
Keep your table on the floor  
And don't you listen to the dead

You can't hitchhike your way to heaven  
The devil's closed the roads  
You live once and you die once with no  
Re-incarnate episodes  
You can't hitchhike to heaven  
Or get there but just being good  
The rules were set down long ago  
When the spikes went in the wood

Heaven is in your mind  
When love is in your heart  
Maybe you'll find the way  
But first you have to start

Forget your hexagram you'll soon feel fine  
Stop looking at the stars  
You don't live under the signs  
Don't mess with gypsies  
Or have your fortune read  
Keep your table on the floor  
And don't you listen to the dead

You can't hitchhike your way to heaven  
The devil's closed the roads  
You live once and you die once with no  
Re-incarnate episodes  
You can't hitchhike to heaven  
Or get there but just being good  
The rules were set down long ago  
When the spikes went in the wood
