

I Don't Believe In Miracles

Larry Norman

I don't believe in miracles
I know what's real I don't pretend
I don't believe in miracles
Or stories with a happy end -
Life is no one's friend

But when we met I felt so free
And suddenly I felt a change come over me
Do you suppose a miracle is happening to me

I don't believe in miracles
I've been around I've seen enough
The only way to get along you must be strong
You must be tough - life is one big bluff
But then you opened up the door
I walked right in and all my fears
Fell on the floor
Do you suppose a miracle is happening to me

But then you opened up the door
I walked right in and all my fears
Fell on the floor
Do you suppose

I don't believe in miracles
I know what's real I don't pretend
I don't believe in miracles
Or stories with a happy end -
Life is no one's friend

But then we met and suddenly
I felt so strange
I felt a change come over me

Do you suppose a miracle is happening to me
Do you suppose a miracle is happening to me
Do you suppose a miracle is happening to me
