U.f.o.

Larry Norman

He's an unidentified flying object You will see Him in the air He's an unidentified flying object You will drop your hands and stare You will be afraid to tell your neighbors They might think that it's not true But when they open up the morning papers They will know they've seen Him too

He will come back like He promised With the price already paid He will gather up His followers And take them all away

He's an unidentified flying object He will sweep down from the sky He's an unidentified flying object Some will sleep but will not die He's an unidentified flying object Coming back to take you home He's an unidentified flying object He will roll away your stone

And if there's life on other planets Then I'm sure that He must know And He's been there once already And has died to save their souls

He's an unidentified flying object You will see Him in the air He's an unidentified flying object You will drop your hands and stare He's an unidentified flying object Coming back to take you Home He's an unidentifed flying object He will roll away your stone
