

## All Night Long

Lasgo

Baby, lay it on the line  
If I am on your mind  
Baby, do you like romance  
If you care for me, you better take this chance

Baby, I played my last card  
So please don't break my heart  
Baby, time is running out  
If you want me too, then you just give a shout

I wanna make love with you  
All night, all night long  
I wanna make love with you  
All night long

Baby, I am on my knees  
Be mine, I'm begging you please  
Baby, it's decision time  
Got to know right now, there's nowhere you can hide

I wanna make love with you  
All night  
I wanna make love with you  
All night

I wanna make love with you  
All night, all night long  
I wanna make love with you  
All night long
